About Me

I am a passionate librarian with a strong commitment to fostering a love for reading, research, and lifelong learning among students. With 1 year of experience in managing school libraries, I strive to make the library a welcoming and resource-rich environment that supports both academic growth and personal development.

I believe the library is the heart of a school—where curiosity is nurtured and imagination thrives. My role goes beyond book management; I actively guide students in finding the right resources, promote reading programs, organize book fairs and literacy activities, and collaborate with teachers to support curriculum needs.
